Professional Summary

Highly motivated and detail-oriented Data Scientist with a strong foundation in R and Machine Learning. Eager to leverage analytical and problem-solving skills to contribute to innovative data-driven solutions. Proficient in adapting to modern development practices and eager to learn and grow within a collaborative team environment. Seeking a challenging role where I can apply my technical expertise and contribute to the success of a data-driven organization.

Skills

- R
- Machine Learning

Education

Bachelor of Technology (BTech) in computerscience

vit vellore
2026

Work Experience

ygbhjbm | kbjkm

February 2025 - Present

- Developed and implemented data analysis models using R to identify trends and patterns in customer data.
- Utilized machine learning algorithms to predict customer churn and improve customer retention strategies.
- Collaborated with cross-functional teams to gather requirements and translate business needs into technical solutions.

Projects

tfjvhj

- Developed a machine learning model to predict customer churn using R.
- Utilized various machine learning algorithms and techniques to optimize model performance.
- Evaluated and compared different models to determine the most effective solution.
