

PROBLEM STATEMENT

- College students take multiple courses with different professors and different exam styles.
- Track what to study, their progress, Study with friends.
- Practice tests that match their professor's style.
- Turn class materials and notes into flashcards.
- There is no single place that understands your entire learning journey and collaborate with peers.

- According to the HEPI Student Generative AI Survey 2025:
92% of students already use AI tools in some form.
88% of students use AI for their academic work.
- Students are already using AI to explain concepts, summarize content, and support their learning.

- Growing Demand : Students are already adopting AI for studying and exam preparation.
- Beyond AI Tutors : Purrfect manages the complete exam-prep journey, not just Q&A.
- Connected Ecosystem : Connects students, professors, course materials, and universities.
- Competitive Edge : Unlike ChatGPT, Quizlet, or traditional LMS platforms, Purrfect knows your exam.

Business Model

Same goal.
More students succeed.

Two paths. One mission — better exam preparation for every student.

1 For Every Student (B2C)

A flexible, personal study companion for any student, anywhere.

Student

Sign up from anywhere

Add Course Info

Manually enter course details and upload materials

Personalized Exam Prep

Study plans, AI support, flashcards, mock exams and more

Revenue Model (B2C)

Free

Basic features

Premium

Advanced AI features, more storage, mock exams, study rooms

Flexible Plans

Monthly / Annual subscriptions

2 In Partnership with Universities (B2B2C)

A seamless, integrated experience for institutions.

University

Partners with Purr:fect!

Professors

Upload course materials, exam details and manage content

Students

Get instant access to their courses and personalized exam prep

Revenue Model (B2B2C)

Institutional Licensing

Annual / per-student pricing

Wide Adoption

Across faculties, campuses and schools

Long-term Value

Better student outcomes and engagement

- Own Exam Season: Be the go-to platform for midterms & finals.
- Campus Cats : Student ambassadors drive campus awareness.
- Classroom Growth: Students bring classmates through study rooms.
- University Partnerships: Student adoption → institutional expansion.

- Year 1: Validate: 10K users → \$40K–\$60K projected revenue.
- Year 2: Grow: 50K users + first university partnerships → \$250K–\$400K.
- Year 3: Scale: 200K users + 10–20 universities → \$1M–\$2M+.
- Revenue Streams: Student Premium subscriptions + University licensing, creating both B2C and B2B2C revenue.
